🔗 My Portfolio

## 📁 Professional Experience

06/2024 – 08/2025  
Lahore

**Branding & Social Media Designer**  
*Freelancer*

Designed complete branding packages including logos, color palettes, typography, and social media content for small businesses and startups. Created eye-catching posts, ads, thumbnails, and promotional designs that improved clients' engagement and brand visibility. Worked independently, communicated clearly with clients, and presented multiple design concepts for approval.

08/2023 – 08/2024  
Lahore

**Technician**  
*Chudhary Veterinary & Poultry Medicines, Zarar Shaheed Road*

Managed the shop's server and network systems, configured Wi-Fi and IP settings, troubleshooted connectivity issues, performed regular backups, and ensured smooth and secure network operations for daily pet care services.

## 🧠 Skills

### Adobe Photoshop

● ● ● ● ●

Expert in creating and editing high-quality visuals, photo retouching, digital illustrations, and marketing graphics with precision and creativity.

### Adobe Illustrator

● ● ● ● ●

Native language; fluent in reading, writing, and communication.

### **English**

Fluent; strong skills in professional writing, reading, and verbal communication.

### **Other Language**

Basic understanding; able to read and comprehend using AI translation tools.

## Summary

---

A creative designer and technical developer who blends imagination with engineering. I started my journey in graphic design in August 2023 and quickly expanded into UI/UX, website development, 2D/3D animation, and game development. I specialize in building clean visual identities, responsive web interfaces, and smooth user experiences. Alongside my design skills, I am deeply knowledgeable in PC troubleshooting, networking, database management, and automation using AI tools like ChatGPT, Claude, and Gemini. I learn fast, solve complex problems, and deliver high-quality work across multiple fields independently. View my portfolio here: <https://my-portfolio-crevo.web.app/>
